## TEACH ASIA Home School Program

When you choose Teach Asia, you get more than an organization that just sells curriculum. You get a Christian team that's committed to support all your educational needs.

As a home educator you can begin your home school adventure with competence and confidence by utilizing School of Tomorrow's **Quick Start Kit**. After diagnostic testing, your children will be assigned courses that each consist of 12 workbooks called PACEs. Each PACE presents interesting lessons, new vocabulary, challenging quizzes, and mastery tests. The unique format of the curriculum allows students to advance from unit to unit as they demonstrate mastery. Students advance through the curriculum under parental supervision. Parents provide tutoring at the optimum moment of learning.

- **TEACH ASIA**

Teach ASIA is a full service home school academy that utilizes the School of Tomorrow curriculum. At TEACH ASIA, parents are the teachers; however, experienced academic advisors assist you in implementing the School of Tomorrow program. When you enroll with TEACH ASIA, you experience the freedom of home school while receiving the full service of a school administration office. TEACH ASIA is linked with TEACH in UK for accreditation.

## Getting Started with Home Schooling using the School of Tomorrow Curriculum

### Methodology

School of Tomorrow material is individualised, the emphasis being placed on learning rather than teaching. A student works in each subject at a level of difficulty perfectly suited to his ability, and does not need to fall into the trap of comparing himself with his peers.

Clearly, a conventional 'classroom' approach would be unable to cater for a wide range of learning levels, and this has necessarily led School of Tomorrow to develop a system to facilitate individualised learning on many different levels within one classroom (learning centre) or home situation. Since this system is quite different to the more familiar approach, parents need to complete a course of training before starting home education using School of Tomorrow programme.

The Home Education Training may be completed at home. The cost of this training is covered under the Home School Enrolment Fee.

For a comprehensive and stimulated training to assist the parents to fully understand the effectiveness of the system, parents are encouraged to attend the next available Parents' Training conducted at the Head Office in Singapore at SGD 300.00 each or SGD 500.00 per couple.

### Initial once-only fee

The Enrolment Fee is S\$250 per family. This is a once only payment, which you send with your completed Enrolment Form. This helps to pay for the following:

What do you do once your child gets to senior school age? Should you go back to 'Egypt' to tread the godless (or many 'gods' !) path towards GCSE and 'A' level? The good news is that now you really do have a Bible-based, Godly alternative in the **INTERNATIONAL CERTIFICATE in CHRISTIAN EDUCATION(ICCE)**.

This Christian secondary qualification is rapidly gaining acceptance with universities, both in the UK, and throughout the rest of the world. Young people registered with the ICCE, who have continued on the School of Tomorrow through their secondary years, may be awarded one of the three levels of Certificate. Please note - this is not an easy option, and pupils coming late to the School of Tomorrow programme, may be stretched even to achieve the level one certificate.

Further details on the ICCE may be obtained upon request.
